

DP5130F-SDL

Digital hands-free featurephone with 18 programmable keys and a large 9-line LCD display for full on-screen prompts for voicemail operation.

Strata DP5000 Series

Classic Series of Featurephones

Toshiba's DP5000 series of digital featurephones offer a wide choice of functionality, and range from a low-cost entry-level option through to a sophisticated large display featurephone with 19 flexible keys.

Supremely robust and reliable, the DP5000 series of featurephones from Toshiba provide a range of functionality to the user, helping improve productivity and efficiency.

Key benefits

- Red/Green Busy Lamp Field (BLF) indication shows who is on the phone or available.
- Red/Green ringing LED for easy distinction of internal and external calls.
- Context sensitive soft keys provide intelligent feature presentation for applications such as voicemail.
- 10 different ring tones provide simple identification of the type of call.
- Direct Dial-In (DDI) numbers can be assigned a specific ring tone for particular projects.
- Access to shared mailboxes through multiple message waiting indication.
- One-touch group pick-up with easy recall of calls placed on hold.
- On-screen directory dialling on LCD featurephones reduces the need to search for numbers.
- Flexible and one-touch keys can be configured for regularly used functions.
- Contact centre supervisors can monitor calls for quality purposes, without the handset picking up background noise.
- Integrated headset interface to plug supported headsets directly into the featurephone, without the need for an adapter.
